Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Status of Claims

1. Claims 1, 15, and 16 have been amended.
2. Claims 1-7 and 15-17 are pending.
3. Claims 1-7 and 15-17 are rejected.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1-7 and 15-17** are rejected under 35 U.S.C. 102(b) as being anticipated by **Diacakis et al.** (US 2002/0116336, hereinafter “Diacakis”).

In regards to **claim 1**, **Diacakis** teaches a method, comprising:

- determining a device oriented context for a specific device associated with an identity (**Diacakis**; par [0043]-par [0044] – “*to determine if the individual is present on a landline telephone, for example, the landline desk phone 44 in his office,*” “*to determine if the individual is present on his mobile phone 46*”, “*to determine whether an individual is present on other devices such as, for example, a personal digital assistant (PDA) 50 or a pager 52*”; Fig. 8), wherein said device oriented context provides an availability status of said specific device (**Diacakis**; par [0026]; par [0043]-

- par [0044] – a landline telephone is clearly a specific device for which an availability status is determined, as is a PDA; par [0045]; par [0053]);**
- determining an identity oriented context for said identity, wherein said identity oriented context provides an availability status of said identity (**Diacakis; par [0056]; par [0059]; Fig. 8);**
 - determining an availability rule associated with said identity (**Diacakis; par [0031]; par [0038] – “determine the individual's availability based on the presence information as well as additional information, such as the individual's situation and defined rules and preferences”);**
 - determining, for a specific time, a true availability of said identity based, at least in part, on said device oriented context for said specific device, said identity oriented context, said availability rule, and said specific time (**Diacakis; par [0034] – par [0035]; par [0038]; par [0040] – “As illustrated in FIG. 4, the presence detection engine 18 may receive various inputs to determine, to the extent possible, the individual's presence. One type of input that the presence detection engine 18 may use to help determine the individual's presence is time-based input 40.”; par [0043] – par [0044]; par [0056]; [0059]; Fig. 8); and**
 - providing data indicative of said true availability of said identity (**Diacakis; par [0035]; Fig. 8).**

In regards to **claim 2**, **Diacakis** teaches the method of claim 1, further comprising receiving a request for information regarding true availability of said identity (**Diacakis; par [0029] – par [0030]**).

In regards to **claim 3**, **Diacakis** teaches the method of claim 1, wherein said determining said true availability of said identity includes determining availability of said identity via at least two different media channels (**Diacakis; par [0031], lines 21-25; par [0035]; par [0038]; par [0040]; par [0043] – par [0044]**).

In regards to **claim 4**, **Diacakis** teaches the method of claim 1, further comprising establishing said availability rule (**Diacakis; par [0031]**).

In regards to **claim 5**, **Diacakis** teaches the method of claim 1, wherein said providing data indicative of said true availability of said identity includes displaying an interface indicative of said availability (**Diacakis; par [0056]; Fig. 8**).

In regards to **claim 6**, **Diacakis** teaches the method of claim 5, wherein said interface identifies said identity (**Diacakis; par [0056]; Fig. 8**).

In regards to **claim 7**, **Diacakis** teaches the method of claim 1, further comprising determining said identity (**Diacakis; par [0038]; par [0056]; Fig. 8**).

Claims 15 and 16 are each rejected with the same rationale given for claim 1.

In regards to **claim 17**, **Diacakis** teaches the method of claim 1, wherein said identity is associated with a plurality of devices (**Diacakis; par [0026]; par [0044] – par [0045]; Fig. 8**).

Response to Arguments

6. Applicant's arguments filed 8/10/07 with respect to the prior art rejections of the claims have been fully considered but they are not persuasive.

Applicant's arguments are substantially the same as those submitted in the response filed on 2/26/07. The applicant is respectfully directed to the Non-Final Office Action mailed on 5/10/07, in which these arguments have been addressed, and also to the stated rejections above.

Conclusion

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2161

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
